

Winterset Community Heart & Soul Leadership Team

The Winterset Heart & Soul Leadership Team was organized November 2018 in collaboration with the Madison County Leadership Team and was active through June 2020. This team promoted the Heart & Soul survey, as well as conducted individual and group interviews through a partnership with Winterset School seventh graders to collect the ideas of Winterset area citizens about what matters most to them about their community and Madison County. These ideas were then crafted into the Winterset Heart & Soul Statements. This work could not have been achieved without this team's commitment, as well as the financial support of the Madison County Board of Supervisors and the Greater Madison County Community Foundation.
